

MOVIN' ON UP - MOVIN' ON OUT

When it comes to loft conversions and home extensions Soundhouse have a brilliant reputation for fine work and stylish solutions

Here at Latest Homes we have been reporting on the projects undertaken by Brighton & Hove building specialists **Soundhouse** for more years than we care to remember – and it's always been a pleasure.

Soundhouse have provided us with some of the most stylish and memorable features over those years, beautiful loft conversions, stunning extensions and always innovative ideas – and they have introduced us to a very happy band of satisfied customers. People have been happy to talk to us about this exemplary company, their professionalism, cleanliness, adherence to budgets and to time scales.

This time we're taking a look at a beautiful new loft conversion in Seven Dials and an airy modern extension in Rugby Road, two projects that have been recently completed. In Seven Dials we have the **Soundhouse** signature seamless transition from the existing features of a property to the new, opening up to a spacious new master bedroom with masses of light and airy space as well as a striking en-suite shower-room and a walk-in wardrobe. Clean lines, cool grey walls and a deep wooden floor create a warmth and depth whilst a wall of windows lets in the maximum amount of crisp light. The impact is impressive.

Over in Preston Park there is a vibrant contemporary new kitchen extension that affords that dream of home and garden becoming one through large tri-fold glass doors. Clean white units and crisp lines are offset by bare brick feature walls and cleverly placed roof lights. The impact is undeniable – but are the clients as happy as previous ones? We spoke to the clients about their new loft level suite. "We're thrilled, Nick and his team have done a brilliant job with superb craftsmanship. They are kind and meticulous, Nick will never claim to be the cheapest but the standards they adhere to are worth every penny. These days we hardly want to get up in the mornings and leave our beautiful new room."

Over in Preston Park the story is the same: "We found them through local recommendations and through friends. They were on time and on budget and communications were good. They

are very considerate too and made sure we were comfortable throughout the whole build. We had a good idea of what we wanted but their design skills proved to be invaluable when it came to realising our dream." Once again, clients affirm that when it comes to movin' on up or movin' on out, **Soundhouse** are the go-to team.
